# COMPANY PROFILE

Flexibility is our strenght

adriaticamolle
PROGETTA, PRODUCE, EVOLVE.

# About Our Company

Adriatica Molle has been an Italian company for design, planning and manufacturing of **elastic components** and **all types of springs since 1977**.

Our solutions cover a wide range of industries, including lighting, oil & gas, engineering, medical, games and automotive.

adriaticamolle
PROGETTA, PRODUCE, EVOLVE.

# Company Policy

## INNOVATION

Anticipating market demand, **experimenting** innovative materials, using technologically advanced and eco-friendly machinery.

## SPEED

Minimizing the time beetween customers need and their satisfaction. Every product is customized and manufactured according to **Just In Time techniques**. We use an integrated supply, production, logistics and quality system that reduces leadtime for design, production and delivery of goods.

## RELIABILITY

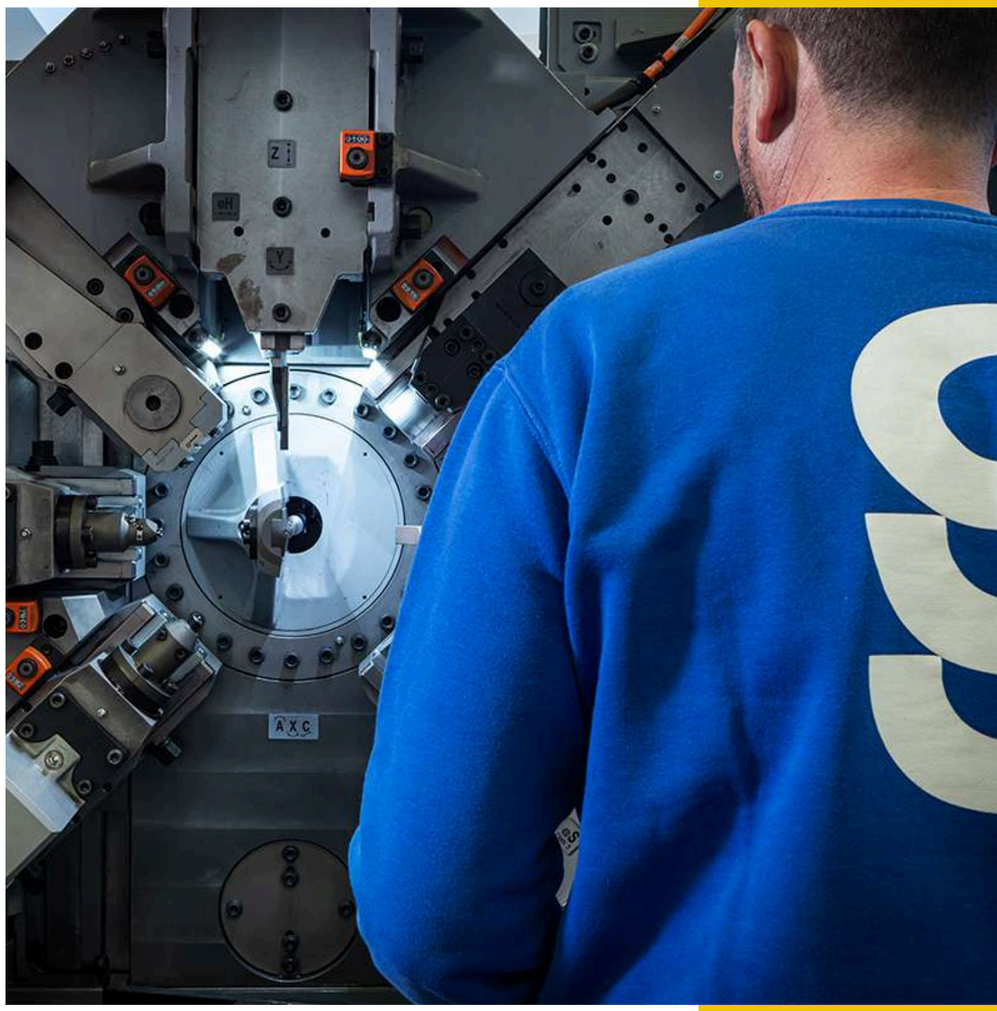
Working while respecting technical requirements and delivery times, **keeping our promises** and ensuring a very high level of product quality.

## KNOW-HOW

Modifying and adapting activities in order to meet the customer need, offering **customized solutions**.

# Distinctive features

- Strongly **customer oriented**
- High **know-how** level
- Deep knowledge and **availability of materials**
- High production **diversification**
- Reliability in **delivery time**
- **Partner** of worldwide leading companies in several sectors
- 35 employees working on **technologically advanced machines**
- **600 customers** served in the last year



## Our product

# COMPRESSION SPRING

**From 0,1 mm to 35,0 mm wire diameters**, according to customer specifications, with **variable geometry** - conical, biconical and with variable pitch.

APPLICATION

Car and motorcycle arrangements, mono shock absorber parts, moorings, valves, toys, forks, modeling, construction, shipbuilding, vibrators, food, dosing pumps, intercoms, biomedical.

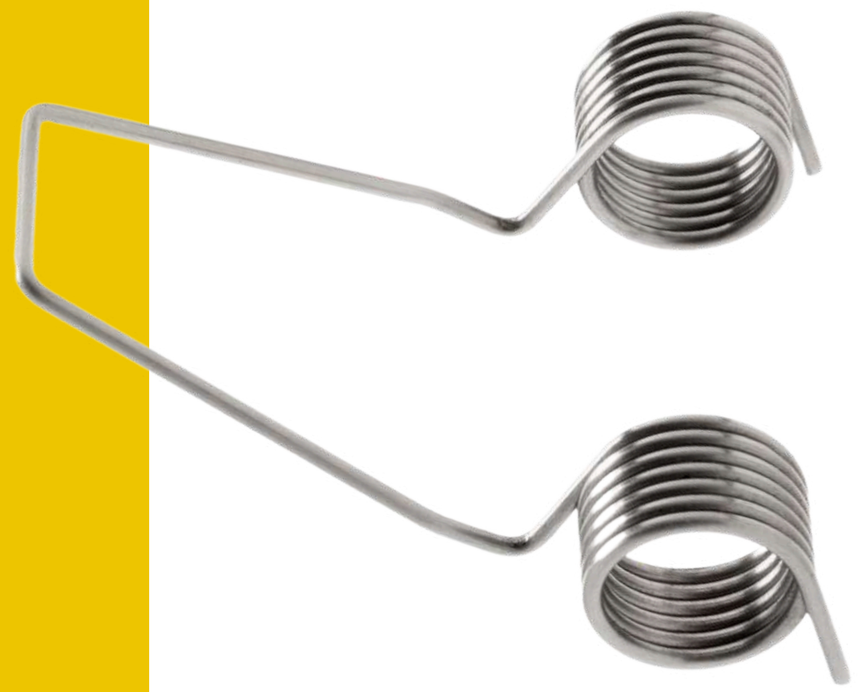
## Our product

# TRACTION SPRING

**From 0,1 mm to 35,0 mm wire diameters**, with German, English eyelets, swivel or other **special eyelets**, according to customer specifications.

APPLICATION

Spare parts, mooring, valves, modeling, toys, general engineering, construction, food, shipbuilding, vibrators, intercoms, biomedical.



## Our product

# TORSION SPRING

**From 0,1 mm to 35,0 mm wire diameters**, in according to customer specifications, with **variable geometry**.

APPLICATION
Spare parts, valves, general engineering, modeling, toys, musical instruments, marine, lighting, food, intercoms, biomedical.

## Our product

# SHAPED SPRING

**From 0,3 mm to 9,0 mm wire diameters automatically,** and **to 35,0 mm wire diameters manually.**

APPLICATION

Spare parts, general engineering, modeling, toys, electronics, lighting, food, fashion, gifts, dosing pumps, intercoms, biomedical.

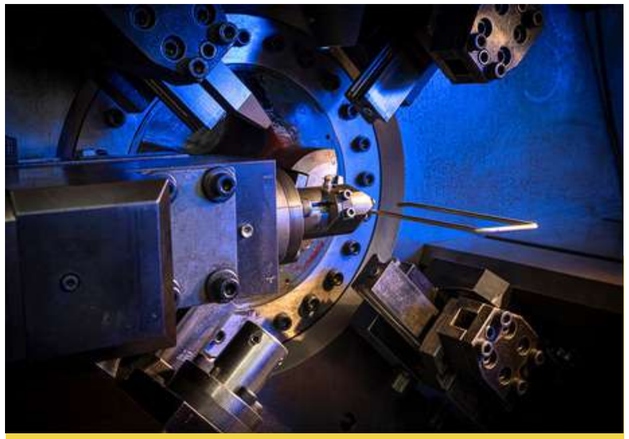
## Our product

# STRIP SPRING

In band and strip.
**Design, development and construction of the equipment is performed in-house** through software and specific machinery.

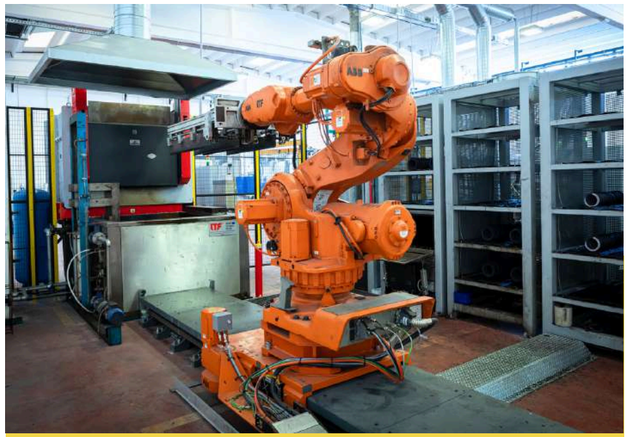
APPLICATION
Spare parts, general engineering, modeling, toys, electronics, lighting, food, fashion, accessories, intercoms, biomedical.

# Production Plant



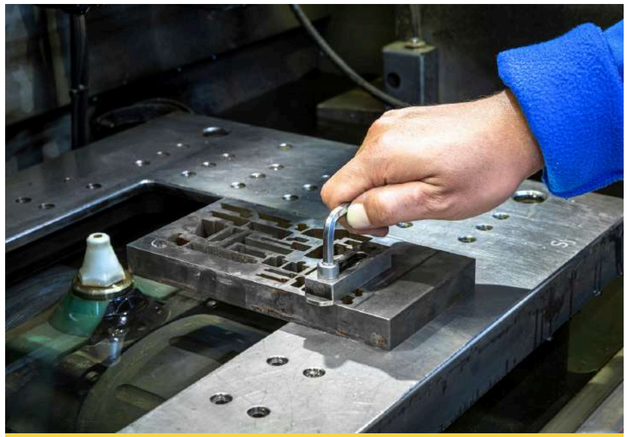
## TYPES OF MACHINES

Coiling Machines
Press Brakes
Springformers



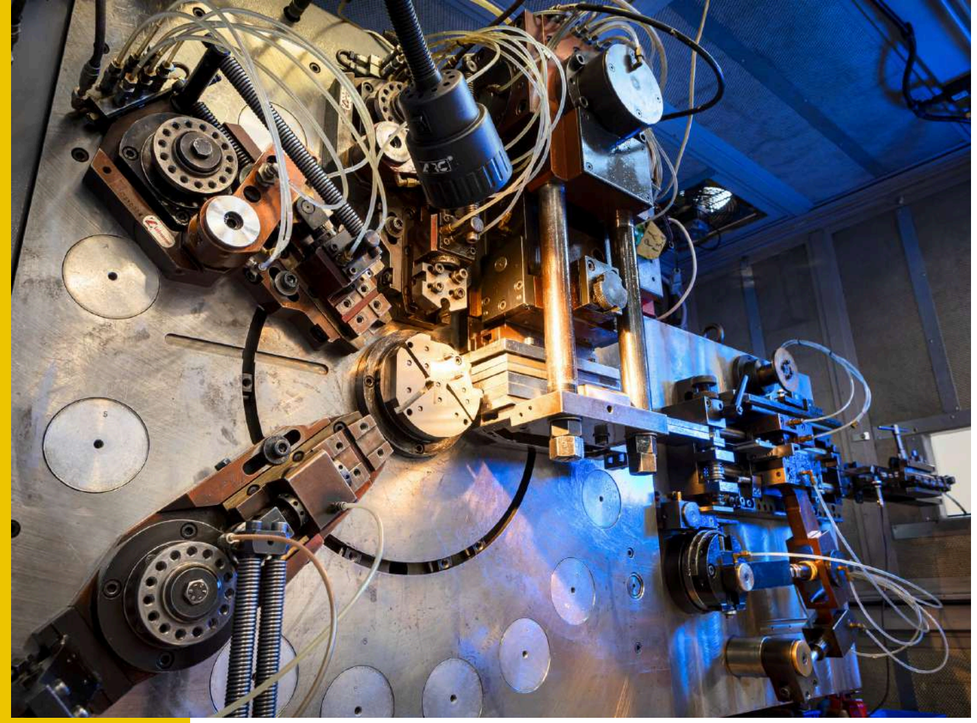
## HEAT AND SURFACE TREATMENTS

Furnaces
Shot-peening
Tumbler
Sand blaster



## INTERNAL TOOLING

with erosion, machining center and tangential grinding

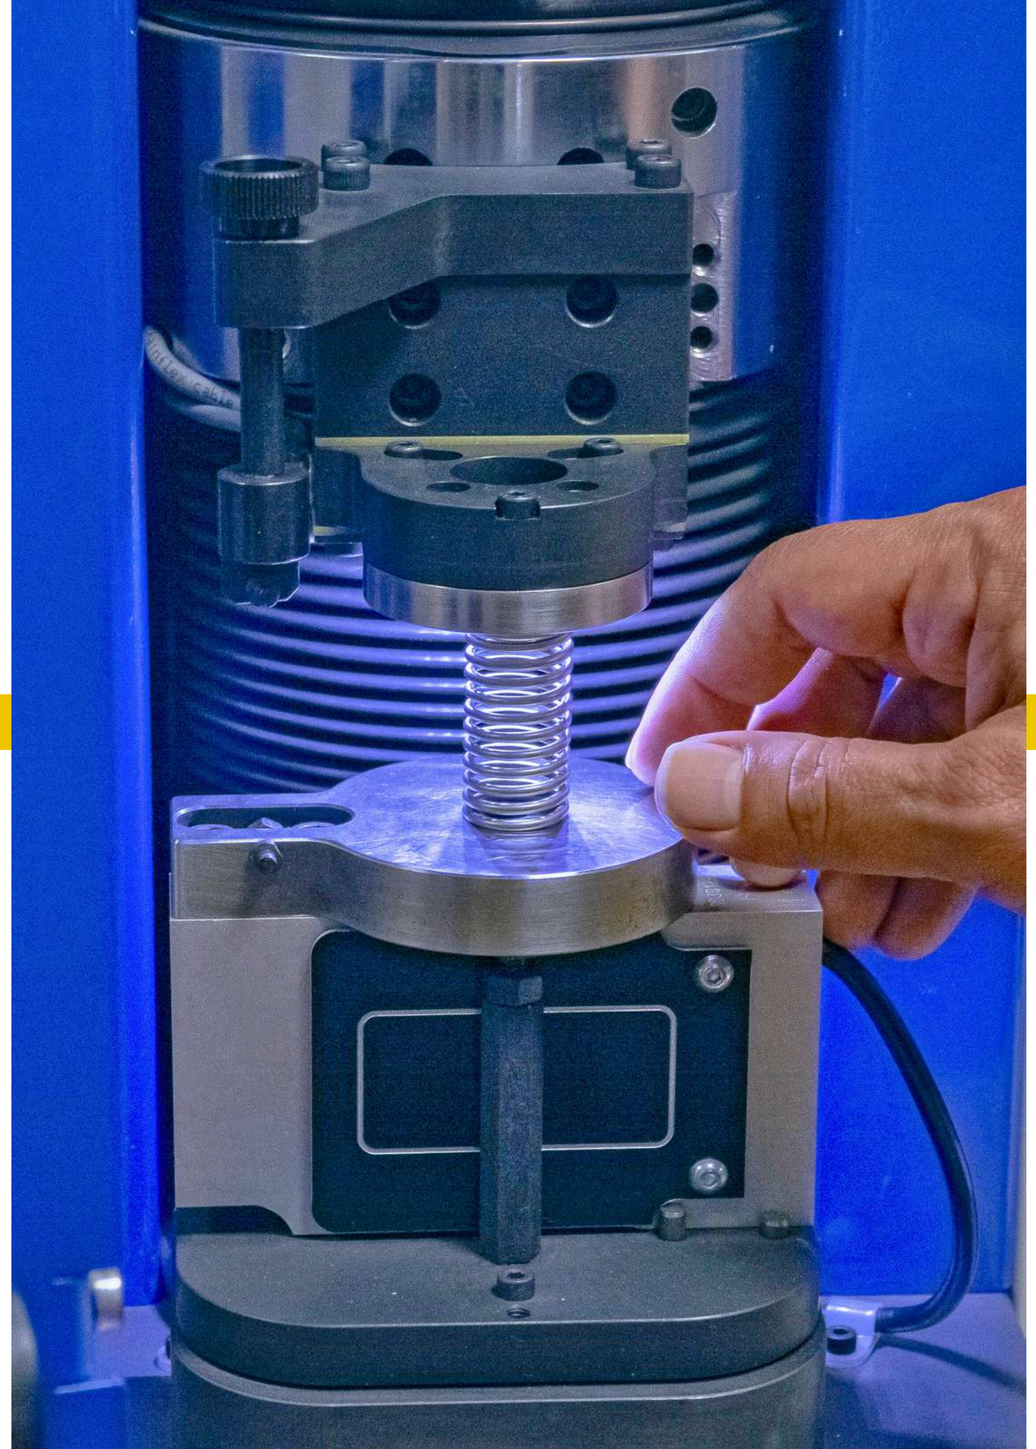


# Our plant

One of our **core business** is the design and development of all molds and equipment.

A **high level of know-how** allows us to implement an integrated process that from the specific request of the customer, expressed by the technical design, leads to the design and realization of toolpaths for numerical control machines.

adriaticamolle
PROGETTA, PRODUCE, EVOLVE.



# In name of quality

We regularly invest in **Research and Development**.

Thanks to stable and multiannual relationships with certified suppliers and the most qualified world producers, we obtain a constant availability of raw material and **high quality materials** with which we manufacture innovative details and solutions in step with the most complex demands.

# Special material

The desire to propose innovative solutions for our customers has made us pioneers in the use of the following Special Materials.

- WASPALOY ®
- GRADE 5 TITANIUM
- SPRINGFLEX ®
- INCONEL ® X-750
- ELGILOY ®
- NIMONIC ® 90
- ALPACCA
- INCONEL ® 718
- HASTELLOY ® C-276
- COPPER BERYLLIUM
- INCONEL ® 600
- 17-4PH (AISI 630)

Bureau Veritas Certification

**ADRIATICA MOLLE S.R.L.**

Via Che Guevara, 36 - 60022 CASTELFIDARDO (AN) - Italy
Sede oggetto di Certificazione:
Via Che Guevara, 36 - 60022 CASTELFIDARDO (AN) - Italy

*Bureau Veritas Italia S.p.A. certifica che il sistema di gestione dell'organizzazione sopra indicata è stato valutato e giudicato conforme ai requisiti della norma di sistema di gestione seguente*

**ISO 9001:2015**

*Campo di applicazione*

**Progettazione e produzione di componenti elastici: molle di trazione, compressione e torsione, molle a nastro, tranciate e sagomate, fili sagomati, mediante processi meccanici di avvolgimento, piegatura e molatura, trattamenti termici e superficiali.**
**IAF: 17**

# THE KEY OF GROWING UP

**1**

### INNOVATION

For the **development of new products**, from consulting in the choice of raw materials and in the design phase with the proposal of **innovative solutions**, and for the optimization of processes.

**2**

### INVESTMENTS

We constantly invest in new technologies, to equip ourselves with **efficient machinery** and to promote digitization, and in the continuous updating of **HR** to avoid the skill-gap. We have increased the production capacity moving our company in a **new building** of 5500 square meters.

**3**

### CONTINUOUS TRAINING

We devote 3% of working hours to training: this leads to a positive participation of employees in our projects, contributing to the **qualitative improvement** of the company.

**4**

### RESEARCH

In order to Continuous Improvement and **Total Quality**, R&D is carried out in a planned manner to raise the level of know-how, produce new knowledge and develop new products and processes.
